परिपत्र / Circular

As per Govt/Institute policy, we need to upload digitally signed academic awards (Degree Certificate) at the National Academic Depository (NAD) website. The objective of the NAD is to ensure that the academic awards are stored permanently in a secured digital depository as well as to make the same available online to all stakeholders.

Given the above, degree certificates of passed out B.Tech. students who received their degree in 16th Convocation have been uploaded at https://nad.ndml.in/ Degree certificates of those students who are currently pursuing their B.Tech degree will be uploaded after successful completion of their courses.

Now, to get your authenticated/duplicate copies of Degree Certificates from the NAD portal, you have to do the following:

Register yourself in the NAD portal using following link:
https://nad.ndml.in/NAD/newStudentRegistrationScreen.html

After successful registration, send the Registration Acknowledgement No. by your registered mail to **Dr. Badal Soni, NAD CELL NIT Silchar**, (email ID: nad.nits@gmail.com) for generation of NAD ID and linking the NAD ID with NAD certificate ID.
